

## EXTERNAL TALENT SEARCH

---

Galiano Gold Inc. is a dual-listed (NYSE: TSX) mining company focused on exploration, development, and operations. Its subsidiary, Asanko Gold Ghana Ltd, is a multi-pit mining complex on the Asankrangwa Gold Belt, featuring a 5.5Mtpa processing plant with expansion potential.

### The Opportunity

Asanko Gold Ghana Ltd is seeking to employ a highly qualified, results-driven and skilled professional to join our Exploration department as **Unit Manager – Regional Exploration**. The successful candidate will play an active hands-on field-based role, provide leadership, and guidance on systems that deliver optimal evaluation and development of potential resources.

### Job Purpose

To manage the implementation of early-stage exploration strategies and geological programs relating to greenfield exploration in an efficient manner and ensure that appropriate exploration technology and research are deployed to support generative exploration activities

### KEY RESPONSIBILITIES:

- Assess and interpret all available data sets to rank exploration targets and opportunities.
- Plan, organize and execute early-stage exploration programs which include soil sampling, geological mapping, geophysical survey, trenching, and drilling activities.
- Play active 'hands-on' field-based role in all exploration programs and data collection.
- Effectively manage multiple field crews on a variety of exploration projects simultaneously in different locations within Ghana.
- Plan and manage the activities of immediate team members to ensure achievement of performance targets.
- Develop detailed documentation to justify proposed exploration programs to support application/request for exploration budget.
- Ensure geology staff are properly trained in all applicable SOPs and ensure these standards are maintained through field job observations.
- Ensure optimal drilling schedule is adhered to and delivered priority targets in a timely manner.
- Conduct internal audits of the geology/exploration management system and reconcile these against external audits.
- Act as a member of the Company's upper management team and promote the corporate strategy.
- In consultation with the Head of department, maintain the department's costs and budget forecasts and foster a culture of cost awareness within the team;
- Perform any other related duties that may be assigned from time to time by the supervisor

### KNOWLEDGE AND SKILL REQUIREMENTS

#### Knowledge

- Degree in Geology / Geological Engineering or related field with knowledge of geological principles.
- Minimum of seven (7) years of post-qualification work experience preferably in greenstone belts.
- Familiarity with current geological technologies and practices;

- Proficient in geological & exploration related software is essential;
- Working knowledge in the following geological and exploration software is required: ArcGIS, Micromine, and Leapfrog and other mining related software will be an added advantage;
- Working knowledge of the Mining Act and related regulations of the Republic of Ghana, and able to interpret and apply these laws and regulations.
- Sound knowledge and understanding of relevant Occupational Health & Safety Regulations and legislative requirements.
- Ability to analyze data, develop strategies, and implement action plans that improve operational performance.
- Strong computer literacy skills in MS Office (Word, Excel, PowerPoint, and Outlook);
- Must have a valid Ghanaian license, minimum of five (5) years driving experience, and ability to drive in rough terrain.

### **Skills**

- Must be self-confident and demonstrate good supervisory competencies to build an effective and motivated team.
- Results-oriented drive and solid work ethics, with exceptional attention for detail.
- Ability to train and mentor team members and demonstrate safety leadership.
- Strong communication (written and verbal) and interpersonal skills.
- Good conflict management and grievance handling skills.
- Good information monitoring and management skills.
- Good planning, organizing and prioritizing skills.
- Strong critical thinking and problem-solving abilities.
- Strong organizational and interpersonal skills.
